BudHI

ALWAYS THERE. ALWAYS CARING.

Companionship and care for every day

For seniors and younger adults.
Practical help for care teams.

ALWAYS THERE. ALWAYS CARING.

For government organizations, municipalities and service flats

A familiar companion, every day

BudHI offers conversations, regular check-ins and personalized reminders that support everyday routines. It helps seniors and younger adults stay connected, with authorized family involvement and continuity between visits.

Support for organizations and healthcare personnel

Shared context: authorized summaries and information help teams prepare visits and coordinate support.
Routine follow-up: configured reminders, alerts and workflows help focus human attention where it is needed.
Resident communications: schedule HI calls and emails for events, bingo nights, weekly lunch menus and lunch bookings.

Features that support everyday wellbeing

Cognitive games and shopping support complement companionship. **Longevity** adds video exercise routines with progress tracking and group activities, plus healthy-food baskets based on preferences. Purchasing uses configured controls and available supplier integrations.

Explore a pilot for your organization
